

Each identified risk is scored and classified as follows:

Likelihood (L)
1 = Very Unlikely
2 = Unlikely
3 = Possible
4 = Likely
5 = Very Likely

Severity (S)
1 = Insignificant
2 = Minor
3 = Moderate
4 = Major
5 = Catastrophic

Relative Risk (L x S)	Level of Risk
1-6	Low Risk
7-12	Medium Low Risk
13-19	Medium High Risk
20-25	High Risk

Risk Description: based on <a href="#">Working safely during COVID-19 in labs and research facilities</a>									
Activity Applicable Area / Room Number	Risk Identification: - as a Line manager/PI what do I need to consider when returning to site?	L	S	RISK SCORE	CONTROL MEASURES	L	S	RISK SCORE	Further Comments
Flexible spaces	<b>1.1 Managing Risk:</b>								
	i. No handwashing station?								
	HW4	4	4	16	i. Locate the nearest station and encourage staff to increase the frequency of handwashing and surface cleaning.	1	4	4	i) Scrub sinks in HW5 rooms. On HW4, will need to use sinks in toilet facilities and/or those in lobby 1 or corridor 4A. Reliant on individuals to use these facilities.
	HW5	1	4	4					
	ii. Activity takes a long time. Describe or list activities in Further Comments section	3	4	12	ii. Encourage individuals to keep laboratory activity time involved as short as possible <a href="#">Social distancing guidance</a> .	3	4	12	ii)Session running time cannot be reduced without compromising teaching
	iii. Can social Distancing measures be implemented?	4	4	16	iii. Individuals are to use back-to-back or side-to-side working (rather than face-to-face) whenever possible <a href="#">Social distancing guidance</a> . <b>Extra Information: Click Here.</b>	2	4	8	iii)Social distancing not possible. PPE to be provided
iv. Are more than a small group of persons required for the workload?	4	4	16	iv. Providing screens or barriers to separate people from each other if required (Requests for screens will be triaged by the E&F department – contact helpdesk for further enquires). <a href="#">Social distancing guidance</a> <b>Extra Information: Click Here.</b>	2	4	8	iv)Multiple small groups in the area. Will spread these out as far as possible.	
v. Are any persons in your team especially vulnerable to Covid -19 infection?	4	4	16	v. <b>Should not currently return to site</b> - see <a href="#">University Covid19 guidance</a> , <a href="#">Key Principles document</a> , <a href="#">HR Guidance</a> , updated <a href="#">Government advice</a>  <b>Extra Information: Click Here.</b>	1	4	4	v)Not known. Will have to assume that any students on site have done personal assessments and have been cleared to be present, and that academic staff are managing their own risk.	

Activity Applicable Area / Room Number	Risk Identification: - as a Line manager/PI what do I need to consider when returning to site?	L	S	RISK SCORE	CONTROL MEASURES	L	S	RISK SCORE	Further Comments
	<p><b>2.0 Who should go to work:</b></p> <p>i. Unable to have the individuals on site who are critical for operational continuity, safe practices or regulatory requirements</p> <p>ii. The activities cannot be performed remotely</p> <p>iii. Cannot keep in touch and monitor the wellbeing of people who are working from home and help them stay connected to the rest of the workforce?</p> <p>iv. No provision of equipment for people to work from home safely and effectively, for example, remote access to work systems.</p>	n/a			<p>i. <b>This work / activity must not go ahead without SHE office involvement.</b> <b>Extra Information: Click Here.</b></p> <p>ii. Ensure activity complies with the guidance in the following documents:</p> <ul style="list-style-type: none"> <li>• <a href="#">Covid19 guidance</a></li> <li>• <a href="#">Key Principles document</a></li> <li>• <a href="#">Social distancing guidance</a></li> </ul> <p>iii. Activity should be discussed with HR Follow <a href="#">HR guidance</a> given.  <b>Extra Information: Click Here.</b></p> <p>iv. Where appropriate and possible equipment /access has been provided for people to work from home safely and effectively, for example, remote access to work systems. Consult HR for <a href="#">HR guidance</a></p> <p><b>Ensure all staff have completed Brit-safe DSE assessment for home working</b></p>				

Activity Applicable Area / Room Number	Risk Identification: <i>- as a Line manager/PI what do I need to consider when returning to site?</i>	L	S	RISK SCORE	CONTROL MEASURES	L	S	RISK SCORE	Further Comments
	<b>2.1 Protecting people at higher risk:</b> i. There are clinically vulnerable individuals in team who are at higher risk of severe illness (for example, people with some pre-existing conditions)	4	4	16	<ul style="list-style-type: none"> <li>These workers/ individuals should continue to work from home. They should not currently be on site. <a href="#">Covid19 guidance, Key Principles document</a></li> <li><a href="#">HR guidance, Updated Government advice</a>, <b>Extra Information: Click Here.</b></li> </ul>	1	4	4	Not known. Will have to assume that any students on site have done personal assessments and have been cleared to be present, and that academic staff are managing their own risk.

### **Phase 1 Covid 19 Guidance on how to complete this risk assessment**

This risk assessment follows the government guidelines and framework for 'Working safely during COVID-19 in labs and research facilities'. The key purpose of this assessment is to reduce the risk of Covid19 transmission. You will need to consider laboratories, offices and breakout areas in your assessment, incorporate social distancing and cleaning measures. This may require limiting numbers of people in the laboratory/area and, if a shared facility, may need discussion with other researchers/individuals.

As laboratories/work areas have been closed for some time, you should carry out a laboratory/area inspection to ensure contents are safe and secure. These should be completed on a regular (eg. 6 monthly basis)

You will need to amend your local rules/SOP for your laboratories/areas to reflect changes in the light of new risk assessment, social distancing and cleaning requirements.

This risk assessment needs to be completed by the Line Manager/PI before returning to work. For laboratory users, you will also need to complete Local rules for your laboratory/ies using the new amended template and a laboratory self -inspection before work can commence. **These documents must be submitted to the Research Institute Manager (RIM) and receipt confirmed before commencing any work.** For other areas, you should complete an inspection of your areas (Office Inspection check list can be found here <https://www.sgul.ac.uk/about/our-professional-services/safety-health-and-environment/a-z#o>) and consider producing Local Rules/SOPs for individuals to follow.

#### **Note:**

*Section 1 - addresses general risks highlighted by [government document](#).*

If vulnerable individuals need to return to site, an individual risk assessment evaluating fitness to return should be completed and discussed with their Line Manager. Further advice should be obtained from the SHE office ([health@sgul.ac.uk](mailto:health@sgul.ac.uk)) and HR.

#### **To complete this risk assessment:**

- For each activity score the likelihood and severity of risk before and after control measures. Use the return key to align the score with the risk consideration. The likelihood x severity will give you the risk score.
- Likelihood -this is the likelihood of the risk (transmitting infection/contracting infection for the activity. Currently for example, if social distancing measures are adhered to and cleaning measures are in place the likelihood will be low.
- Severity – this is the consequence of the risk to the health of individuals. (For some people the severity associated with contracting Covid-19 will be higher than others. Therefore, the severity is likely to be high)
- Risks can be marked as N/A if they do not apply to your laboratory.
- Control measures can be added or deleted as appropriate and should be ‘best fit’ for the situation
- Add additional comments that are necessary to action control measures in your area,
- Post control measure, the scoring for likelihood should fall, but severity stays the same resulting in a reduced risk score.
- Click on the extra information content boxes. These are drop down text boxes that are for reading purpose only. Do not select within this box.
- For researchers, date the form and submit to your Research Institute Manager, for others please submit to your local H&S committee. Confirm receipt before commencing any work.
- Ensure it is communicated to all staff and students in your team (e.g. e.mail) and (if necessary) to other PI/individuals that share your laboratories/offices /work areas before commencing any work.

Once you have completed these tasks consider designating your area Covid secure.

<https://assets.publishing.service.gov.uk/media/5eb97021d3bf7f5d43765cbf/staying-covid-19-secure-accessible.pdf>

#### Trouble shooting:

1. Selected a line in the extra information box that now displays in the control measures – **click the ‘undo’ button and it should return to display the text ‘extra information’.**
  - Useful
