

National Programme on Substance Abuse Deaths (NPSAD): Drug-Related Deaths in 2014

For drug-related deaths information for England, Northern Ireland, the Isle of Man and the Channel Islands, please visit: <http://www.sgul.ac.uk/research/population-health/our-projects/national-programme-on-substance-abuse-deaths>

An NPSAD case is defined as a death where any of the following criteria are met at a completed inquest, fatal accident inquiry or similar investigation: one or more psychoactive substance directly implicated in death; history of dependence or abuse of psychoactive drugs; presence of controlled drugs at post mortem; and/or cases with deaths directly due to drugs but with no inquest.
