

# Innovation Nexus

Issue 2 (November 2023)

## zinc

### Funding Opportunity

Zinc (venture builder) have applications open for their May 2024 health start up cohort, with £300k investment support!

For more information, and to apply, please see their [webpage](#).

### St George's joins forces with London Universities to develop the UK's first MedTech company builder

St George's, alongside Kings College London, Queen Mary University London and City University of London, have successfully won £1.5m to develop a translation acceleration programme for medical devices, thanks to Research England's Connecting Capability Fund.

For more information, please go to our [webpage](#).

### Knowledge Exchange Framework Results 2023

We are pleased to report St George's Knowledge Exchange Framework (KEF) results.

- We have ranked 'high' or 'very high' in five of the seven areas
- Increased in two areas (working with the public and third sector and public engagement)
- We have ranked above the sector average in four of the seven areas.
