

St George's, University of London
Scheme of Assessment for BSc (Hons) Healthcare Science Year 3

Addendum for 2020-21 Assessments (Unforeseen Circumstances Regulations)

Clinical Training 2 – Cardiac Physiology & Clinical Training 2 – Respiratory and Sleep Physiology modules (CT2):

The following summative assessment units cannot be completed in the normal timeframe due to the closure of clinical sites to students during the Covid19 crisis. No summative marks are allocated to these elements, but they must normally be passed in order to progress to year 3.

As an exceptional adjustment for the 2019-20 academic year only, students will be permitted to progress without completing these components.

Provision has been put in place to allow them to achieve and demonstrate these competencies within the Year 3 Clinical Training blocks.

The module leaders for Clinical Training 3 (CT3) will act as Internal Examiners for the trailing CT2 components according to the normal regulations. The assessment will be ratified by the Year 3 External Examiners and the Year 3 Board of Examiners in July 2021.

YEAR 2: TRAILED MODULE					
Module	Credit	Assessment components	Weighting %	Timing	Achieving a pass
Clinical Training 2: Cardiac Physiology or Respiratory and Sleep Physiology	15	Satisfactory attendance at work- based placements	Pass / Fail	Completion by end of CT3 module (May)	Each assessment component must be passed separately in order to achieve an overall pass for this module.
		Satisfactory demonstration of specified Clinical Competencies	Pass / Fail	Completion by end of CT3 module (May)	
		DOPS/CBD/OCE			
		Satisfactory demonstration of specified Professional Competencies	Pass / Fail	Completion by end of CT3 module (May)	
		Portfolio	Pass / Fail	Completion by end of CT3 module (May)	

Weighted attendance removal:

The weighted attendance component for the Applying Cardiac Physiology to Practice, Applying Respiratory & Sleep Physiology to Practice and Professional Practice 3 modules will be removed for the 2020/1 academic year only due to delivery of online learning, predominately in an asynchronous manner.

YEAR 3: WEIGHTED ATTENDANCE AFFECTED MODULES					
Module	Credit	Assessment components	Weighting %	Timing	Achieving a pass
Professional Practice 3	15	1 In course reflective essay	60%	March	Each assessment component must be passed separately in order to achieve an overall pass for this module.
		Oral Presentation	40%	March	
Applying Cardiac Physiology to Practice Or Applying Respiratory and Sleep Physiology to Practice	30	1 in course essay	30%	February	Each assessment component must be passed separately in order to achieve an overall pass for this module.
		1 written examination	70%	June	

Final Award:

In addition to the award rules stated in the Year 3 Scheme of Assessment, students must complete the trailing module in order to graduate from the programme with BSc (Hons).
