

What others have said about our events

'Has given real food for thought on how to further evolve my own path

'I enjoyed the fact that it was practical and involved all participants and encouraged discussion between staff, students and the workshop leader

The fusion of Arts and Humanities with science will enable us to reimagine our Being and professionalism in a more human-friendly, sustainable manner

'I enjoy out of the box thinking , and hearing about others experiences

'Was a very eye-opening experience'

'A fresh way of thinking

'Something new and creative

'An eye opening experience

'Something new and creative

'Fascinating Speakers

'Having always had a keen interest in music and the arts, it is really refreshing to find a new focus on their synergy with the world of clinical medicine rather than these aspects of my personal and professional life feeling like they have to compete

'helps you see a perspective you wouldn't ordinarily have seen

'I found it interesting and engaging and a lovely opportunity to learn new skill and meet new people
