INTERNATIONAL STUDENT MINI GUIDE

Become specialist

Health | Medicine | Science
The UK's specialist health university

STUDY HEALTH SCIENCES IN LONDON

London is ranked one of the best student cities in the world. It has a vibrant, diverse culture that attracts over 110,000 students every year.

Studying in London means that you will have opportunities to make both career and personal connections that will last for a lifetime. The city also offers lots of student discounts on transportation, tourist attractions and entertainment, so that you can make the most of your time studying here.

St George's campus is based in Tooting, which is a thriving and dynamic neighbourhood location in southwest London. The University campus is only a short walk away from Tooting Broadway Tube Station, from where you can travel into central London in only 20 minutes.

St George's Hospital is famous in the UK for serving as one of the settings for Channel 4's award-winning television programme *24 Hours in A&E*. The programme shows real-life hospital scenarios and has made St George's a household name.

WHY ST GEORGE'S?

St George's, University of London is a special place. We have been improving health for over 250 years, since our founding in 1752. We are the UK's specialist health university and offer a range of undergraduate and postgraduate courses in health, medicine and science.

THE UK'S SPECIALIST HEALTHCARE UNIVERSITY

St George's, University of London, is the UK's specialist health university, offering a wide array of undergraduate and postgraduate courses in medicine, health and science.

A SHARED CAMPUS WITH ONE OF THE UK'S LARGEST HOSPITALS

We are the only university in the UK to share a campus with a major teaching hospital, St George's Hospital. This means we can give our students a real taste of what their future working lives hold.

BE TAUGHT IN SPECIALIST FACILITIES

Our science and research laboratories, along with our simulation suites which replicate real hospital environments, are the perfect way for you to practice techniques in a safe environment.

LEARN FROM EXTRAORDINARY PEOPLE

You'll be taught by staff with real world experience of working in clinical and healthcare settings. Their expertise spans from the earliest phase of basic discovery to the development of new diagnostics, treatments and approaches to healthcare delivery and preventative medicine.

BE PART OF UNIVERSITY OF LONDON

St George's is one of the member institutions that make up the University of London, one of the largest universities in Britain, giving you access to the Senate House Library, the Careers and the Accommodation services, as well as all facilities provided by the University of London's Student Union.
